

NISSAN Pathfinder 2005-2013

3rd ROW SEATS IN (upright and usable)

OUR PATT REF: Ho449-R3USE

- ☐ Our packing requirements
- ☐ Cargo liner
 - Min 24 self-adhesive loop fastener pads
- ☐ Liftgate Cover
 - Min 21 self-adhesive loop fastener pads

IMPORTANT PREPARATION

To ensure a good bond: when using the self-adhesive hook & loop fasteners to attach the cargo liner to the plastic (NOT the carpet), it is most important to remove the silicone film from the vehicle trim.

Silicone is applied during manufacture and can also be found in many valeting products. It is highly likely there will be a build-up of silicone.

Before applying any self-adhesive fastener pads, the surface **MUST** be thoroughly cleaned using a silicone remover. (The fasteners cannot be used once it has been in contact with silicone) We recommend Intensive Tar Remover made by AutoGlym. Wipe off thoroughly any residue with a separate clean dry cloth.

NOTE: The adhesive takes 24hrs to reach full adhesion – do not disturb during this time. In cold weather we advise you to install the liner in a warm environment (i.e. run the car till the interior is warm)

Optional extra: Liftgate cover

PREPARATION

- Remove the left side storage net: PHOTO A

INSTALLATION

- **BASE:** Starting at the liftgate end, position base of the liner snugly into place. Use the self-adhesive loop fastener to attach the liner to the metal liftgate plate. To the front, the hook fasteners on the back side of the liner attach directly to the carpet.
- **FRONT PANEL:** The hook fasteners on the back side of the liner attach directly to the carpet.
Please note on REAR PLUS version liners – you will need to carefully unfasten the hook & loop fasteners on the seat backs before you attempt to fold your 3rd-row seats flat!
- **SIDE PANELS:** Position the side panels snugly into place.
Use the self-adhesive loop fasteners to attach the sides to the plastic panels.

Optional extra – Liftgate Cover

Use the self-adhesive loop fasteners to attach the cover to the plastic panel.
