

BMW 4 SERIES GRAN COUPE - 2015 - 2021

OUR REF: H0657

INSTALLATION KIT CONTENTS:

CARGO LINER

- **2x 250 mm** 30mm wide self-adhesive loop fastener
- **2x 500 mm** 20mm wide self-adhesive loop fastener
- **8x** ref 121

REF 121

Rear Plus with Seat Split cargo liner

LIFTGATE COVER

- **22 x tabs** self-adhesive loop fastener

VERY IMPORTANT PREPARATION

To ensure the self-adhesive hook & loop fastener sticks to the plastic trim, you **MUST CLEAN** all grime from the plastic and **REMOVE** all **SILICONE** applied during manufacture and detailing.

To do this please:

1. Use a silicone remover, such as AutoGlym Intensive Tar Remover and apply generously to the surface you want to adhere to.
2. Using a separate clean & dry cloth, thoroughly dry the surface until the cloth starts to drag. Attach one fastener tab to see if it sticks. (Repeat steps 1 to 2 if necessary)
3. Attach the self-adhesive fastener and let them fully adhere over the next 24 hours for the best bond.

**The fastener cannot be used once it has been in contact with silicone. Replacement kits are available on our website.*

STEP 1. PREPARATIONS

- Remove the cargo cover. It may be replaced later.
- Lower the net on the righthand side if your car has one, it will not be usable with the cargo liner installed.

STEP 2. INSTALLING THE BASE

- Place the cargo liner in the cargo area with the Hatchbag logo at the seat end. Flatten the base so it fits snugly against the edges. **(Image A)** Ensure you have a good fit, as the following steps will fix the liner in place.
- Tilt the rear seats forwards slightly to open a gap between the rear seats and the floor of the cargo area.
- Push the foam-filled tabs sewn onto the front end of the base into the gap between the cargo area floor and the rear seats. Fold the seats back up trapping the foam tabs. **(Image B)**

STEP 3. INSTALLING THE FRONT

- **- PLUS / SPLIT VERSION ONLY** - Fasten the hook & loop fastener between the side panels and the seat panel. **(Image C)**
- Loop the hook & loop fastener straps around both headrest posts. **(Image D)**. Make sure to hold the front part of the base in position to avoid pulling the Hatchbag too far up.
- The front panel will go up and over the rear seats up to the headrest posts. This is to help the middle panel stay in place when either side is dropped down.

REAR PLUS VERSIONS

You **MUST** unfasten the hook & loop fasteners + the headrest straps before you recline the upper parts of the rear seats. *(Please refer to REAR PLUS / SPLIT options on website to see detailed photo)*

STEP 4. INSTALLING THE SIDES & BACK

- Attach the 20mm wide self-adhesive loop fastener strips to the bottom edge of the side plastic panels just above the carpeted area as highlighted in orange. (Image E)
- Insert 4 ref:121 tabs on each side of the cargo area as highlighted in green (Image E). To do this peel back the rubber and slot the plastic end of the ref:121 tabs behind the carpeted panel. (Image F)
- Slide these ref:121 tabs up or down so that they align with the hook fastener on the sides of the cargo liner. (Image E&F)
- Fasten the hook fastener on the top edge of the cargo liner sides to the previously attached fastener strips and tabs.
- Stick the 30mm wide self-adhesive loop fastener onto the panel located on both sides of the lock at the liftgate end of the cargo area. Fasten the cargo liner to it using the fasteners on the Cargo Liner. (Image G)

OPTIONAL EXTRAS

Please note the following photos are non-specific to your vehicle

STEP 5A. LIFTGATE COVER

- Remove the liftgate cover panel, this can be replaced after the liftgate cover has been installed

Line up the liftgate cover with the liftgate and clean the areas where the self-adhesive fastener tabs will be stuck. (Image 1)

- Use the self-adhesive loop fastener tabs to attach the cover to the plastic trim.

STEP 5B. BUMPER FLAP

- Install Cargo Liner
- Attach the Bumper Flap to the loop fastener strip located at the base of the Cargo Liner. (image 2)
- The Bumper Flap either folds into the vehicle OR can be detached and stored elsewhere when you close the liftgate.

STEP 5C. CARGO LINER EXTENSION

The Cargo Liner Extension provides superior protection to the rear seats when purchased with a REAR PLUS option. (Image 3)

- The Cargo Liner Extension is designed to attach to a Rear Plus version liner.
- It provides additional protection to the back of the front seats and the extended floor area when the rear seats are folded flat.
- It does not offer full protection to the rear doors.

The Bumper Flap and the Cargo Liner Extension cannot be added at a late date
