

Alfa Romeo Stelvio - 2018 - present

our ref: H0732

PACKAGING REQUIREMENTS:

☐ CARGO LINER

- None

☐ LIFTGATE COVER

- **22 x tabs** self-adhesive loop fastener

Rear Split, prepared for a Bumper Flap & Cargo Liner Extension

VERY IMPORTANT PREPARATION

To ensure the self-adhesive hook & loop fasteners stick to the plastic trim, you **MUST CLEAN** all grime from the plastic and **REMOVE** all **SILICONE** applied during manufacture and detailing.

To do this please:

1. Use a silicone remover, such as 'AutoGlym Intensive Tar Remover' and apply generously to the surface you want to adhere to.
2. Using a separate clean, dry cloth, thoroughly dry the surface until the cloth starts to drag. Attach 1 self-adhesive fastener tab to see if it sticks. (Repeat steps 1 to 2 if necessary) Extra spares have been provided.
3. Attach the self-adhesive fasteners and let them fully adhere over the next 24 hours for the best bond.

**The self-adhesive fasteners cannot be used once they have been in contact with silicone. Replacement kits are available on our website.*

STEP 1. PREPARATIONS

- Remove the cargo cover. It may be replaced later.
- Put the headrests in their highest position.

STEP 2. INSTALLING THE BASE

- Place the cargo liner into the cargo area with the Hatchbag logo at the seat end. Flatten the base so it fits snugly against the edges. The hook fasteners on the back side attach directly to the carpet. (Image B)

STEP 3. INSTALLING THE FRONT

- - **PLUS / SPLIT VERSION ONLY** - Fasten the hook & loop fasteners between the side panels and the seat panel. (Image C)
- Starting with the middle headrest, loop the elastic fastener straps around both headrest posts. (Image D). Make sure to hold the front part of the base in position to avoid pulling the Cargo liner too far up. Repeat the procedure with the left and right headrests.

REAR PLUS VERSIONS

You **MUST** unfasten the hook & loop fasteners + the headrest straps before you recline the upper part of the rear seats. (Please refer to **REAR PLUS / SPLIT** options on website to see detailed photo.)

STEP 4. INSTALLING THE SIDES

- Attach the hook fasteners on the top edge of the Cargo liner sides directly to the carpeted sides of the cargo area. (Image E)
- On the right side make sure to push the liner inside the pocket and attach the two hook fasteners welded on the back side of the liner directly to the top edge of the recess (Orange arrows - Image E & F)

STEP 5. INSTALLING THE BACK

- Attach the Cargo liner side end directly to the carpet as shown on Image G.
- Attach the Cargo liner to the back end of the cargo area by attaching the hook fastener sewn on the back side of the car liner directly to the carpet. (Highlighted in yellow - Image H)

OPTIONAL EXTRAS

STEP 5C. CARGO LINER EXTENSION

The Cargo Liner Extension provides superior protection for the rear seats when purchased with a REAR PLUS option. (image 3 & 4)

- The Cargo Liner Extension is designed to attach to a Rear Plus/Split version liner.
- It provides additional protection for the back of the front seats and the extended floor area when the rear seats are folded flat.
- It does not offer full protection for the rear doors.
- Attach the Cargo Liner Extension to the main Cargo liner. (Image 3)
- Fasten the two ties in the corner together. (Orange arrows - Image 4)
- Fasten the hook & loop fastener straps around both headrest posts. (Blue arrows - Image 4)

The Bumper Flap and Cargo Liner Extension cannot be added at a later date.

STEP 5D. FREQUENT USE INSTALLATION KIT

- If you frequently remove/install your cargo liner from/to your vehicle, please note that the carpet will “fluff” up – we offer an alternative Frequent Use Installation Kit in this case. (image 5+6)

The Frequent Use Installation Kit is available from our online store. Simply add it to your order from the Store. The Kit can also be ordered at a later date.
