VERY IMPORTANT PREPARATION

To ensure the self-adhesive hook & loop fastener stick to the plastic trim, you **MUST CLEAN** all grime from the plastic and **REMOVE** all **SILICONE** applied during manufacture and detailing.

To do this please:

1. Use a silicone remover, such as AutoGlym Intensive Tar Remover, and apply generously to the surface you want to adhere to.
2. Using a separate clean, dry cloth, thoroughly dry the surface until the cloth starts to drag. Attach one self-adhesive fastener tab to see if it sticks. (Repeat steps 1 and 2 if necessary.) Extra tabs have been provided.
3. Attach the self-adhesive fasteners and let them fully adhere over the next 24 hours for the best bond.

**The self-adhesive fasteners cannot be used once they have been in contact with silicone. Replacement kits are available on our website.*

STEP 1. PREPARATIONS

- Remove the cargo cover. It may be replaced later.
- Put the central headrest in its highest position. (Image A)

STEP 2. INSTALLING THE BASE

- Place the cargo liner into the cargo area with the Hatchbag logo at the seat end. Flatten the base so it installs snugly against the edges. The hook fasteners on the underside attach directly to the carpet. (Image B)
- Starting in the left-hand corner behind the rear seats, carefully peel back the base to expose the hook fastener and fasten one ref:113 to the exposed carpet, aligned with where the hook fastener is attached. (Image C)
- Repeat for all 8 hook fasteners on the base panel.

NOTE: When temporarily removing the cargo liner, peel the liner away from the ref:113 leaving it attached to the carpet. This will prevent the carpet fibers from fluffing up, reducing the functionality of the fasteners.

STEP 3. INSTALLING THE FRONT

- **PLUS / SPLIT VERSION ONLY** - Fasten the hook & loop fasteners between the side panels and the seat panel. (Image D)
- Starting with the middle headrest, fasten the hook & loop fastener straps around both headrest posts. (Image E).
- Loop the elastic fastener straps around both headrests. (Image E). Make sure to hold the front part of the base in position to avoid pulling the cargo liner too far up.
- REAR PLUS VERSIONS

You **MUST** unfasten the hook & loop fasteners and the headrest straps before you recline the upper part of the rear seats. (Please refer to **REAR PLUS / SPLIT** options on website to see detailed photo.)

STEP 4. INSTALLING THE SIDES

- The side panels of the cargo liner are attached directly to the carpeted area on the sides of the cargo. Align the hook fasteners along the top edge of the cargo liner side panel with the edges of the carpeted area. (Image F)
- For a more secure install, we have included 8 frequent use installation tabs (ref.113) that have hook fastener on one side and loop on the other. These are placed between the carpeted sides of the cargo area and the cargo liner. We recommend using these on the green highlighted area of the cargo area (green arrow - Image F)

STEP 5. INSTALLING THE BACK

- Stick the (400mm fastener) to the panel located on either side of the lock at the liftgate end of the cargo area. Snip the self-adhesive fastener strips at the corners to ease around the curve.
- Attach the cargo liner to it using the hook fastener on the liner. (Image G)

- It does not offer full protection to the rear doors
- Attach the Cargo liner extension to the main cargo liner (Image 6)
- Fasten the two ties in the corner together (Orange arrows - Image 7)
- Fasten the hook & loop fastener straps around the headrest posts. (Blue arrows - Image 7)
- Fasten ties to the corresponding rear seat striker loop (Green arrow - Image 8)
- Repeat on opposite side

Please Note: the Seat Flap, the Bumper Flap & the Cargo liner Extension cannot be added at a later date.

STEP 6E. FREQUENT USE INSTALLATION KIT

- If you frequently remove/install your cargo liner from/to your vehicle, please note that the carpet will "fluff" up – we offer an alternative Frequent Use Installation Kit . These tabs are placed between the cargo liner and the cargo area carpet.(Image 9 & 10)

The Frequent Use Kit is an accessory available to purchase from our on-line store.
